# User Stories:

1. As a user, I want to add an activity so I can remember to do it.

2. As a user, I want to categorize activities so I can navigate the app easily.

3. As a user, I want a type of activity with a checkbox so I can mark it done.

4. As a user, I want a type of activity with a counter so I can track my progress.

5. As a user, I want to add activities that resets daily so I can develop habits.

6. As a user, I want to set a goal for certain activities and get a reward when I finish them so I can be more motivated.

7. As a user, I want a way to classify activities by priority so I know what to focus on.

8. As a user, I want to set a reminder for certain activities so I don't forget them.

9. As a user, I want to see my streak in daily activities so It would be more likely to continue doing the activity.

10. As a user, I want to be able to see my past activities to see how far I've come.

11. As a user, I want a simple interface so I don't get confused.

12. As a user, I want an option for a dark theme so the app can be more comfortable to the eye.

13. As a developer, I want the user to be able to edit/delete activities so the app can be more flexible.

14. As a developer, I want to divide the interface into different sections so that the app can be simple and packed with features at the same time.

15. As a developer, I want access to date and time to make the app function properly.

16. As a developer, I want a database so I can make the app store all the information related to each activity.
